

The College of William and Mary English Department Tucker – Room P.O. Box 8795 Williamsburg, VA 23187-8795 (757) 221- Fax: (757) 221-@wm.edu

The Major Computing Requirement (MCR) in English applies to all majors.

English majors may satisfy the MCR in one of two ways:

1) by completing English 475 **OR** 

2) by submitting evidence of having pursued substantive research using computing resources and techniques in another English course

This form, indicating how the MCR will be or has been met, should be filed with the English Department no later than the beginning of the final semester before graduation.

Please select "A" or "B":

Using the appropriate research databases on CD in the Swem Library Reference Room or available on the net through Swem's homepage, students in the course will compile:

A)	A brief annotated bibliography of material relevant to any aspect of the course as			
	defined by the instructor.			
	OR			
B)	A brief report identifying and evaluating websites, collections, electronic texts, and other			
	materials available on the internet that is relevant to the course as defined by the instructor.
