

THINK BEFORE YOU DRINK

Bar safety is everyone's personal responsibility. To keep going out fun and risk-free, follow the **SAFE** principle!

Stay with your Tribe

Always make sure that you arrive and leave with all members of your group. Keeping an eye on your friends ensures that everyone gets home safely. Never leave a friend unattended; especially if they're inebriated.

Follow your Gut

If you see something, say something! If you notice any situation that may be illegal or unsafe, notify the bartender. It is everyone's responsibility to keep our community safe!

Arrange for a Ride

Alcohol alters your intuition and reaction time. Driving while intoxicated is unsafe and illegal. Even if you think you are fine, it is always better to call an Uber or Lift.

Eyes on your Drink

Never leave your drink unattended! By always watching your drink, you prevent the possibility of someone tampering with it. Student Assembly is offering NightCaps to protect your drink while out with your friends!
